

Q2 Digital Banking Platform

The most robust, flexible platform in the industry

Q2 offers best-in-class solutions for retail, small business, and commercial—all from one platform.

The Q2 Digital Banking Platform lets financial institutions (FIs) serve and grow with all their account holders through a single system. The user experience is configurable, so FIs can use account holder behaviors and traits to provide a tailored experience to different segments. With access to an award-winning SDK and 175+ pre-integrated fintech partners, FIs can drive rapid innovation and make the experience their own. And it's all supported by world-class hosting and security infrastructure that keeps Q2 customers and their account holders up, engaged, and secure.

Digital banking creates human experiences across consumer, small business, and commercial clients.

Consumer Banking

Dynamic personal experiences for consumers

With Q2 Engage, our consumer banking solutions deliver curated personal experiences that transform every digital banking interaction into loyalty-building engagement, on an end-to-end platform that grows with you and the evolving needs of consumers.

Small Business Banking

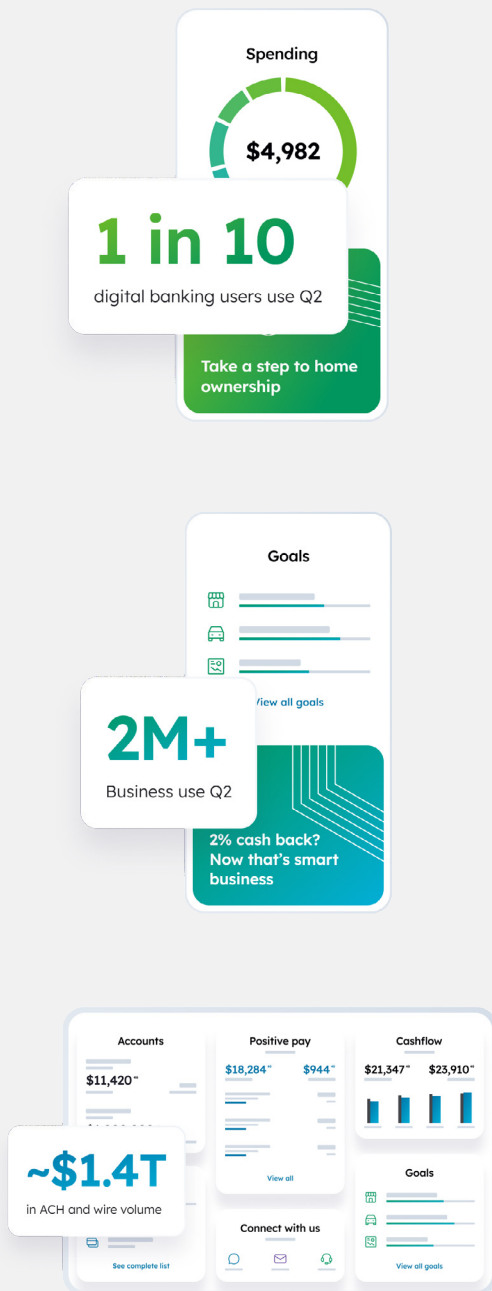

Tailored packages for small business

For too long, small business banking has missed the mark, with either too much complexity or not enough capabilities. With Q2, you can give small businesses a banking experience that's just right by tailoring the functionality that each type of small business receives.

Commercial Banking

Commercial functionality for large, high-volume clients

Q2 Catalyst lets you serve commercial clients of all sizes with market-leading commercial banking and cash management delivered on one configurable platform. Choose from our end-to-end digital capabilities to fit your commercial clients needs.

All supported by one modern back-office tool

Q2 Console is a modern, web-based single sign-on solution to manage all things Q2. It allows your team to access multiple Q2 back-office systems and near-real-time digital banking data, with simple user management workflows and personalization by role. You can even manage your integrated Q2 partner solutions.

Make the platform your own through no-code/low-code configuration, market-leading dev tools, and the industry's biggest partner ecosystem.

UI and Experience Control

Control the UI, no development required

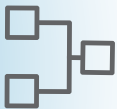

The UI layer is flexible to meet your needs. Change colors, themes, and layouts, segment account holders using data and traits, then, curate an experience for those account holders based on their needs.

SDK

Build your own features and flows

Q2 built our platform to be open for our customers to take advantage of its power, speed, and flexibility to innovate rapidly. Join over 1600+ developers who leverage the Q2 SDK to personalize the platform and deliver more experiences with your own customizations.

Innovation Studio

Harness fintech innovation in weeks

Q2 Innovation Studio gives you turnkey access to more than 175+ fintech solutions that let you innovate fast, deepen relationships, and differentiate your digital offerings.

"Leveraging data is the key difference in the experiences we deliver."

Stacy Thomas | Vice President of Digital Strategy & Optimization, Founders Federal Credit Union

Revolutionize digital banking with seamless integration, robust security, and cutting-edge cloud solutions.

Integration Framework

Integration as a core competency

Building integrations in this industry takes time and investment. We've made it a core skill at Q2 for 20 years, which means we can support your tech stack on day one and give you optionality for whatever you're planning next.

Security

Multilayered security proven to mitigate fraud

Q2 invests in leading security capabilities at every layer of the application, from authentication to transaction and behavior, to account activity and endpoint-centric controls. With AI-powered security solutions, we've stopped billions in fraud for our customers.

Hosting

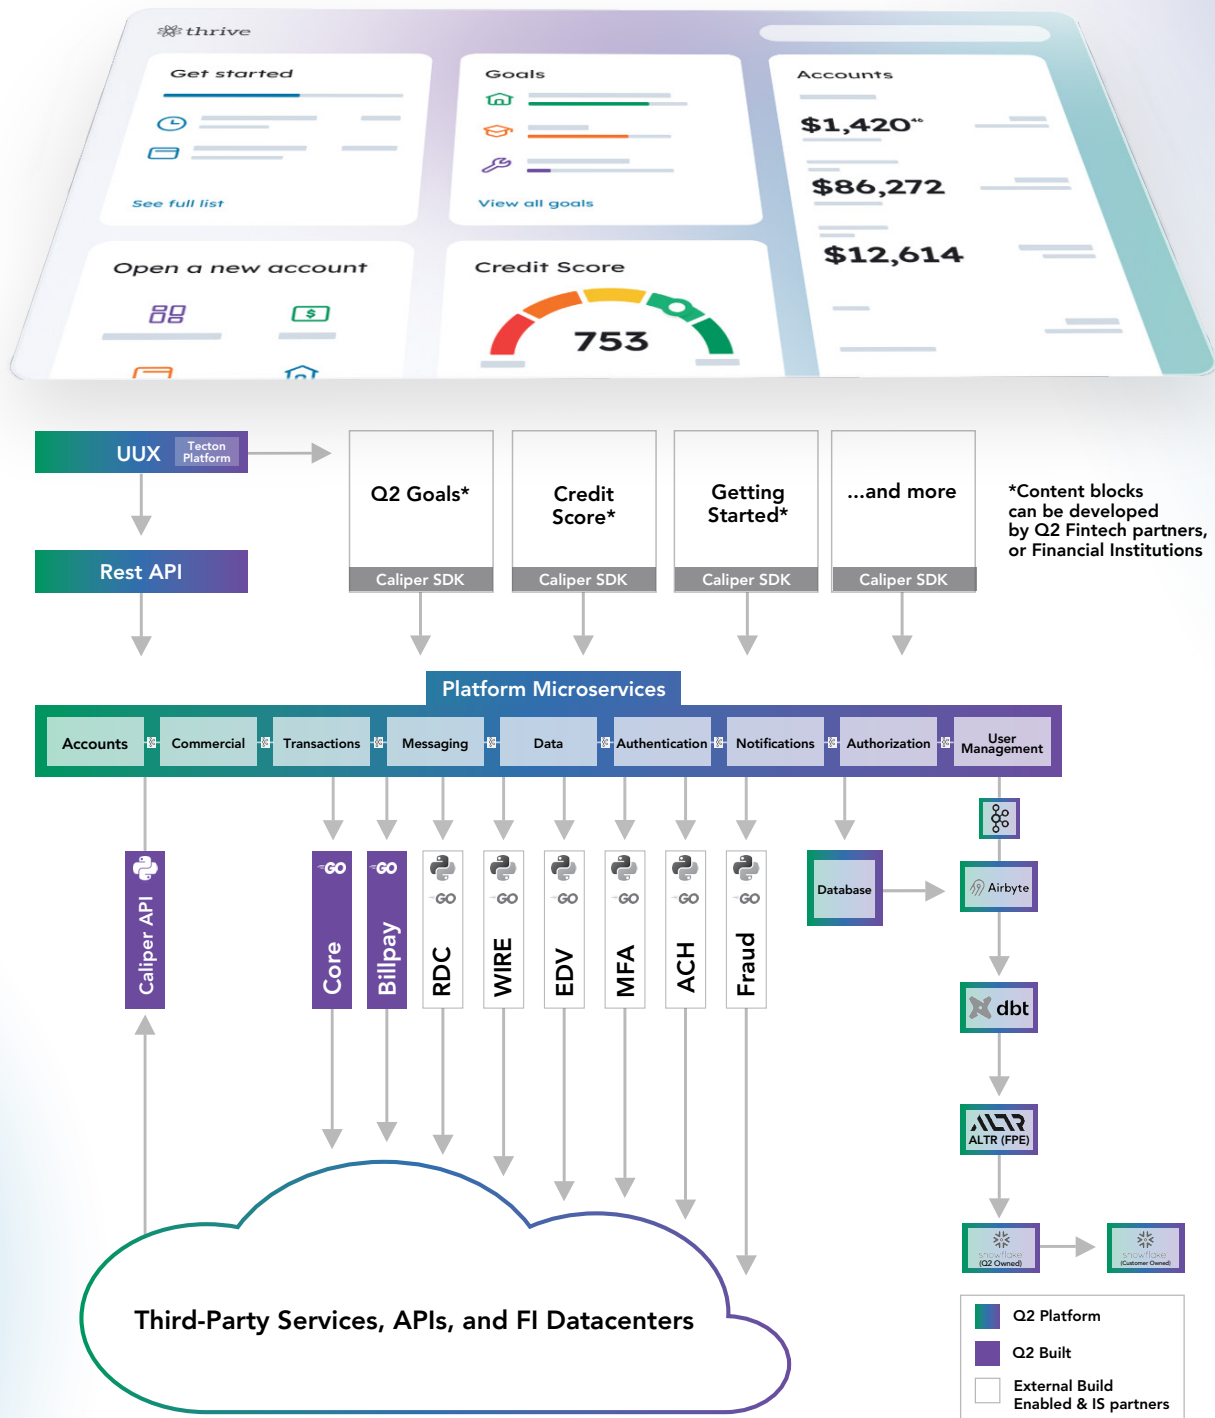

Cloud hosting maximizes resiliency and innovation

Q2 has operated in public cloud environments for the past decade. Today, we are public cloud-first, giving customers access to world-class system availability and the latest hosting innovation, like seamless upgrades and continuous delivery.

1000+

back-end integrations to cores, check and statement imaging, bill pay, and more

A state-of-the-art platform architecture keeps it all flexible, secure, and available.

About Q2 Holdings, Inc
